2020-21 Educational Options

Option 1

Traditional In-Person Instruction - Traditional in-person instruction consists of your child attending school at North Knox Primary, North Knox Intermediate, or North Knox Jr/Sr High School. With this option, NKSC has developed protocols and plans to respond to the current COVID-19 pandemic. Please see the NKSC reopening of schools plan for details.

Option 2

Virtual Online Instruction - Virtual online instruction consists of your child utilizing an educational program created by the educational firm Edmentum. Students will learn from home via this online learning platform. Students enrolled in option 2 will not receive their daily instruction from North Knox faculty. Please note, option 2 is not a duplicate of the instruction provided by North Knox School Corporation this past spring.

Additionally, students enrolled in option 2 cannot participate in extracurricular activities offered by NKSC.

Parents and guardians interested in the virtual online instruction program for their children should begin contacting their respective building principal starting Monday, August 3rd.

Parents and students interested in learning more about option 2 should plan on attending an informational meeting on Wednesday, August 5th at 7PM in the North Knox Jr-Sr High School Auditorium.
